Specifications

Input Voltage

The range of input voltage is from 30~120VDC, nominal input voltage is 48 and 90VDC

Input Current

The maximum is 7A at 30VDC input

Inrush Current

The inrush current is less than 70A at 30VDC input

Load Range

At the factory, the +5V output is set between 5.08V to 5.13V and all output at 60% rated load; the other outputs are checked to be within the accuracy range. The maximum total combined output power on the +3.3V and +5V rails is 70W. The max. load cannot exceed 120W

Ripple And Noise

The peak to peak ripple and noise for +5V, +3.3V output are less than 100mV for +5Vsb is 120mV, for +12V is less than 120mV, for -12V is less than 200mV at rated load and nominal input, which is measured by a 20MHz bandwidth limited oscilloscope and the each output is connected with a 0.47uF capacitor

Line Regulation

The line regulation is less than +/-2.5% at rated load with +/-10% change in input voltage

Load Regulation

The load regulation for +5V is less than +/-2%, for +12V is less than +/-5%, for -12V +/-5%, +3.3V is less than +/-5% while the measuring is done by changing the measured output loading +/-40% from 60% rated load, and keep other output is at 60% rated load

Power On/Off

The power supply will start-up when the power On/Off pin be connected to secondary GND

Power Good Signal

The power is turned on, the power good signal will go high between 100ms to 500ms after all output DC voltage are within regulation limits

Power Fail Signal

The power fail signal will go low at least 1ms before any of the output voltages fall below the regulation limits

Efficiency

The efficiency is higher than 70% while measuring at nominal line and rated load

Altitude

0~10,000ft

Protection

The power supply will generate the hiccup mode to protect itself against short circuit or over load condition, and will return to normal after wrong condition is removed

Temperature

0~+50°C, output power is 120W forced air cooling, 85W convection cooling (operating); -20~+70°C (storage)

Humidity

10~90% non-condensing
